Sustainable Food Choices on Campus

1) Utilize the new paper bags at Subway!

Next time you step in for a Subway sandwich opt for a paper bag to help us produce less waste on campus.

2) Eat more produce!

We are proud to partner with many local and regional farms to bring fresh produce to the Dining Halls. Our potatoes, carrots, apples, melons, mushrooms, onions, Brussels sprouts, cabbage, kale, and many others come from soil close to home so as to have a local and balanced dining experience to Western.

3) Eat cage-free eggs at the Dining Halls!

All of our eggs on campus are cage-free.
